

Submitter: CeAnne Currie

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3450

I support HB 3450 because it sets in motion a plan to transition all fuel tanks off the banks of the Willamette River. These tanks are old and they will tumble into the river in the event of an earthquake, sparking fires and destroying the ecosystem for the plants and animals all the way to the Pacific Ocean. They also put neighboring residents at high risk.

This is an urgent statewide fuel issue. We can't stop an earthquake or fire or derailment but we can make safety and prevention priorities to protect people and the environment.
