

Submitter: C Young
On Behalf Of: resident
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB2038

Dear Chair Representative Lively, Vice Chairs Gamba and Levy, and all other members of the Committee on Climate, Energy and Environment,

Please work with your colleagues to make sure that HB 2038 is defeated.

Having worked in nuclear waste management over the course of my career in both the USA and Canada, including an environmental impact study for the current dry cast storage units currently at the power plants, I know nuclear power is not the best option.

Instead, Oregon should be looking at conservation, smaller houses when we build, better urban form so we don't rely so much on personal vehicles, and similar creative strategies to reduce our energy footprint.

Oregonians voted for no nuclear power long ago. That sentiment is STILL relevant so there is no need to study it now.

Thank you, C Young
