

Submitter: Kate Cassidy
On Behalf Of: Future generations
Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB2965

As temporary residents on this Earth, it is our responsibility and honor to protect our living planet for the future. If nothing else, the Oregon Coast holds huge attractions for visitors from this country and other nations. Do not help destroy the beauty and economy with blooming algae and depleted wild-caught fish.

Please support HB 2965-5. As an Oregonian, it's important to me that we protect Oregon's coastal waters from the harms of industrial aquaculture. It has been scientifically proven that net pen aquaculture of fin-fish causes environmental and socioeconomic harms, and we want Oregon to prevent an influx of such operations now that they are banned or seriously restricted on the rest of the West Coast.

Do Your Jobs with Honor and Moral Obligations for the Future.

Sincerely,
Kate Cassidy
