Measure, Appointment or Topic: HB2965

I am writing to urge to you please support HB 2965-5. It's very important to me as an Oregonian that we do all that we can to protect Oregon's coastal waters from the harms of industrial agriculture. Science has proven that net-pen aquaculture of finfish causes both socioeconomic and environmental harms. We want Oregon to prevent an influx of such operations now that they are banned or seriously restricted on the rest of the West Coast. Let's join our neighbors, California and Washington and ban or seriously restrict the use of net-pen aquaculture of finfish. This is why I am urging you to support HB 2965-5.
