Measure, Appointment or Topic: HB2995

Considering the state is expecting by a large deficit and is struggling to provide basic services for all, this is incredibly poor timing. The only people who will benefit from this are the persons the task force will pay to spend untold hours researching and compiling information. The idea of reparations for something few who currently live in Oregon either participated in or were affected by is posturing at best, and using racism to fix past racist policies. Please vote no.
