Stop this nonsense. Stop telling us we are victims when none of us has been enslaved in this way. Stop breeding division and disdain. Stop living in the past and focus instead on building modern ties of humanitarian respect between Oregonians. Stop the obstructive and injurious promotion of the schismatic isolation of particular groups and just allow us to come together in love.

As the dangerous and ugly divisions of the Diversity Equity Inclusion reverberate across the United States and are rejected by the majority, Oregon lawmakers try another illogical stunt. This concept has been twisted into a framework that promotes victimhood mentality, oppressing the very people this idea was designed to supposedly assist. The further subdivision and higher taxation of the Oregon populace is disgraceful.

This idea is so outdated and outrageously segregationary it should be dead on arrival. A task force IS needed, but instead we should address the question of if lawmakers are using our hard-earned taxes appropriately, in good faith, and responsibly for Oregonians. Think better Oregon Legislators. Because the fact remains that you do owe us intelligent and justifiable governance.
