On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB2138

HB 2138 Section 22(1)(f) –

History has proven again and again that the rush to demolish and throw up something new without adequate value review is NOT efficient, nor does it honor the craft, skill and wisdom of those from whom we come. The National Register of Historic Places has been put in place to help us set priorities. Let us pause for a moment and look around us. We have only to look at our neighborhoods to see how every day we are diminishing our own environment. We don't learn from what's ahead, we learn from the past. Please understand that to dismiss this valuation step in HB 2138 is to create another significant loss that new generations will hold us responsible for.
