

Submitter: Bill Bold

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: SB711

This bill will take the police out of the equation and turned a section of their police function to a group of unidentified "contractors". Who is going to make the decision on what qualifications these contractors need to have? The only role the police need have in this program is to rubber stamp the results from the contractors.

I am also not happy that this bill will remove section 2,(1),(a),(C) on having an indicator of the actual speed of the vehicle visible to the driver. I think this is a useful preventative measure that could reduce the number of tickets.
