As a volunteer who has spent countless hours helping with food collection, organization, and distribution, I am writing in support of OFB and its work to provide access to those who need resources the most. This work is such a necessary direct action, keeping people alive and able to feed their families. This work is important, and needs to continue. The policies that food for all advocate for are crucial to the health and wellbeing of our communities, and help to break down barriers and access issues. Please support this important organization.
