

Submitter: William Evans

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Please SUPPORT HB3103. This bill is critical in managing the States forest lands and directs the state forester to:

- Establish and publish sustainable harvest levels that balance economic and environmental priorities.
- Develop a modern timber inventory model to track forest conditions and guide responsible management.
- Ensure timber sales align with sustainable harvest goals to support local economies and timber-dependent communities.
- Provide greater transparency and accountability in how our state forests are managed.

We can best manage our forest lands through a transparent process that achieves the outcomes listed above, and therefore I ask for your SUPPORT on HB3103.
