Resources, and Water
Measure, Appointment or Topic: HB3103

I oppose this bill. I really oppose this bill!

We do not need to legislate minimum cutting levels except for the benefit of timber companies and their processing facilities.

Why do we even allow exporting raw logs from this state. Are we just a raw resource extraction site?

Let's establish legislation requiring minimum annual replanting/reforestation of burnt acreage instead of HB3103.

Thank you
