Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

We already have a plan that is better than this proposal.

HCP protects habitat, water, old-growth forests, and land for recreation.

We do not want to open the door to clear-cutting and allowing the timber industry to wreak havoc on nature.

Oregon's greatest assets are natural; people come from all over the world to enjoy our wilderness.

HB 3103 is a bad idea and would harm our economy and our resistance to the climate crisis.

Let's help our state be a leader for climate recovery.
