Measure, Appointment or Topic: HB3103

I oppose HB3103. The clearcutting of our beautiful Oregon timberland has a devastating effect on the entire ecosystem that it protects. The logging practices that I have personally witnessed while trying to enjoy the outdoors has been nothing short of horrendous and will no doubt leave a lasting mark that will forever change the Oregon landscape. Our forests have already succumbed to countless wildfires and clearcutting what's left doesn't make any sense. Come on Oregon a catch a clue.
