

Submitter: Robert Egner
On Behalf Of: Voting Citizens and Tax payers
Committee: House Committee On Commerce and Consumer Protection
Measure, Appointment or Topic: HB2528

I oppose this measure because many use these pouches, nicotine delivery systems etc to stop actually smoking cigarettes or using smokeless tobacco such as chew.

These other alternatives are safer and create less overall tax burden on the people of Oregon. Less people using resources such as Oregon Health Plan to treat cancers related to cigarettes and chew.

I don't see a reason to create additional language that could impede those trying to quit a worse substance.
