

Submitter: Roberta Powell

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1003

I oppose any bill that would expand Assisted Suicide for vulnerable elderly and ill people. We need to show people who are feeling the need for this that we care and offer them real solutions to their situation instead of giving them the message that we support their taking their own life. This is bad legislation and not an answer for people suffering from pain and/or depression.
