Measure, Appointment or Topic: HB3103

This measure is so absurd in its corrupt intentions that it would be amusing were it not for the genuine threat it poses to Oregon's ecological health and the public weal if it were to pass.

It prioritizes private business interests over public interests, enriches private businesses at the public's expense, and reveals a ghastly indifference to destruction and suffering inflicted by unconstrained greed, all of which characterize the malignant ambition of predatory actors that must be fought assiduously if a healthy and beautiful Oregon is to be preserved.
