

Submitter: John Altshuler

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

Many beneficial advances have been made in the forestry sphere and the contest between logging for money and protecting the forest and all of its elements. Going backwards would damage all the positive things that have occurred in the last 50-60 years. Let's not go back. Let's keep going forward in a manner that may not benefit industry as much as they would like but there would maintain a balance between both ends of the spectrum.
