Measure, Appointment or Topic: HB3103

I strongly oppose passage of HB 3103. It is irresponsible in this era of climate crisis to clearcut forests. I expect elected officials and lawmakers to behave as stewards of the land and not pawns of the timber industry. The hidden costs of increased logging include damage to clean water, wildlife, recreational opportunities, and ecosystem health. HB 3103 would increase logging to an unsustainable level.

Please, please don't let the timber industry ravage our forests. Serve the greater good of the land and people of Oregon by rejecting HB 3103.
