

Submitter: Eva Miller

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

You must reject House Bill 3103. We cannot allow the Department of Forestry to log our public forests at unsustainable levels, especially during a time of climate crisis.

I demand that you stand up for our environment, as wise leaders in state government have done for many years. The timber industry must operate within limits. It is madness to value their profits over our collective future and the needs of so many species for whom these forests are home.

The State Forest HCP represents years of public input. Courts have upheld Oregon's right to conscientiously manage these forests (*County of Linn v. State of Oregon*). I urge you to make it clear that these lands must first support clean water, wildlife, and future generations—not just logging.

Please reject HB 3103.
