

Submitter: Thomas Boyd

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

I oppose House Bill 3103 and its amendments. The approach to timber harvest advocated in the bill is not sustainable. It is good for neither forestry resources, nor the ecosystems supported by the forest, including salmon and other wildlife. The actions proposed would be bad for water quality, and would undercut Oregon forests key role in carbon sequestration.

I urge you to oppose this bill. Please do not let it pass out of committee.
