

Submitter: Jennifer Abney
On Behalf Of: Myself and the law that was voted in
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB2410

In voting against Nuclear Plants in Oregon, I don't understand how Umatilla County, where I live, can consistently try to bypass the Law, when the voters have spoken. I don't want a nuclear plant in my backyard, nor Amazon using more of our water, without even getting limits on that, put aside the pollution. Please listen to the voters. We spoke in the eighties, with our votes. An oligarch should not be able to bypass the law, nor should the counties. Thank you.
