

Submitter: Waverly Hayner

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

These State Forests are mostly in the Coast Range and should be managed for Clean Water, Wildlife Habitat, Recreation and Carbon Sequestration NOT FOR SHORT TERM LOGGING PROFITS which have left the Coastal Communities with damaged Watersheds and few jobs with sustainable income. I am OPPOSED to HB 3103! It is incredibly ignorant to believe any Forester could decide how much State Forest can be sustainably harvested in a future where we are facing catastrophic climate change that effects every life on Earth! There should be a Moratorium on Logging any State Forest Land over the next decade to Protect it for Future Generations. We have over harvested our share. The most important resource to get from these Forest Lands after Habitat for non human life forms is Water. Water is Life! Save the Oregon State Forest Lands by opposing this greedy capitalist notion of Sustainable Harvest. Thank you.
