

Submitter: James Kehoe
On Behalf Of: self
Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB3103

Please vote to oppose HB 3103. Past practices have shown the timber industry clear cutting approach has severely damaged forests and streams and significantly effected wildlife in a detrimental manner. Erosion from clear cuts damage streams and fisheries including many endangered species. We have finally turned the corner in terms of enforcing better forestry practices. Now is not the time to undo those gains by caving into the timber lobby for the sake of profit and ease of destruction of our public forests. We have an obligation to protect our natural resources for generations to come. Please oppose HB3103 and help preserve good forest practices.
