Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

Dear Chair Lively, Vice-Chair Gamba, Vice-Chair Levy, and Members of the Committee:

My name is Brandon Larrabee, and I live in Siletz Oregon and I am writing because supporting Oregonians is a no brainer! I support HB 3081 because Oregonians need more support navigating hundreds of available energy efficiency upgrades and rebates.

I support HB 3081 because:

Navigating resources can be a struggle, especially to our hard working Oregonians that already have full plates so to speak. We need to bolster support for everyone across the state to have access and a better understanding of the resources available to them.

When one Oregonian wins, we all do. Reducing our footprint will have cascading affects, not just for us humans, but the salmon, the deer, the elk, and all the other non-human Oregonians that take care of us.

I think it's an obvious choice to support Oregonians, especially when we can help them achieve more efficient and cost reduced homes.

I urge you to support HB 3081 because when one Oregonian wins, we all win.

Sincerely,
Brandon Larrabee
Siletz, Oregon
