

Submitter: Alexis West

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

The areas of state forest that are clearcut continue to increase. The slopes are steep and present flood danger. Furthermore, because of climate changes the vast exposed acreage is continually drying. Expect that savannah will replace forest. ODF is culling too many acres and robbing the future generations of Oregon. Scotland was deforested in less than 200 years by English overlords. we can expect the elite CEO of timber corps to be the current robber barons. The aerial spraying is another level of mismanagement commonly executed upon the denuded Cascades for profit to the chemical lobbyists. How's that watershed contamination lawsuit going?
