Resources, and Water

Measure, Appointment or Topic: HB3103

Forests protect our air, water & wildlife. Clear cutting, even when called 'Regen' is not healthy for any of those three, on which we all depend. Environmental protections are too weak in this proposal. It should be reconsidered, rewritten with an eye toward true sustainability, not only for the tree farms, timber companies, such as Boise Cascade & Weyerhaeuser, but for the people who depend on clean air, water & wildlife.

Thank you for considering my opinion.
