Measure, Appointment or Topic: HB3103

I absolutely oppose HB 3103 which promotes more clear-cuts and habitat damage to Tillamook County's forestlands as well as allowing the timber industry to sue our state forester for "not harvesting enough timber" - both are ridiculous propositions. I will send additional advice regarding this and my take on the qualities needed in a new State Forester now that Cal Mukumoto has resigned. Tillamook County residents are not represented by Timber Industry alone, but also by the many people actively working toward protecting our invaluable natural resources and the more lucrative economic interests of fisheries, recreation and tourism. I am a year-round resident, substitute teacher and Planning Commissioner in Rockaway Beach.
