

Submitter: Kathryn Fox

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

We have taken too much forested land already. At this rate, we will lose our forests which will affect the safety of wildlife, (fauna and flora), our sustainability, and increase global warming. Our leaders must pay attention to the whole earth picture and realize that earth's inhabitants could disappear. Too much thoughts of the short-term monetary gains. More thoughts on the long term and what is best for the future.
