Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

I strongly support HB 3081.

We must make it easier for people to stay in their homes and make housing more resilient. One Stop Shop 2.0 aims to offer live support to help users navigate the hundreds of available upgrades and rebates. We can create good-paying jobs in clean energy and help communities that are most impacted by climate change by making it easier for people to invest in climate resilience.
