Oregon's forests are not currently being managed properly, and causing the majority of wildfires. They once provided jobs and revenue for all of Oregon. Enough with the climate crisis hoax, and environmental groups pushing for horrible policies that hurt Oregonians. This approach does nothing to offset the tremendous loss due to wildfires and months of smoke. We need to make our forests sustainable again by managing state lands properly. What is happening in Oregon currently is inexcusable. SUPPORT HB3103.
