

Submitter:	Hazel Adams
On Behalf Of:	Cascades Academy Eco Club
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB2679

Please support HB 2679 because it is an amazing bill that can ban Neonicotinoids so that our bees and butterflies can thrive. This chemical also contaminates waterways so we can save both our lovely pollinators and our amazing aquatic life. As a person who loves nature I think this bill can be an amazing step towards saving our bees and keeping our nature a gorgeous place to explore.
