

Submitter: Sarah Jenner

On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB702

As a Public Health student, young adult, and Oregon resident, I strongly support this bill. Our youth deserve a better start in life than being set up for a lifetime of addiction and preventable premature death. Big Tobacco has targeted our youth for too long and I have personally seen how flavored products make tobacco more appealing to tweens and teens.
