Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

Dear Chair Lively, Vice-Chair Gamba, Vice-Chair Levy, and Members of the Committee:

I am writing in support of HB 3081 because Oregonians need more support navigating hundreds of available energy efficiency upgrades and rebates.

I support HB 3081 because:

We can create good-paying jobs in clean energy and help communities that are most impacted by climate change by making it easier for people to invest in climate resilience. With One Stop Shop 2.0, we can help people afford the transition to a cleaner, more sustainable system that benefits everyone – from workers in clean energy to families struggling to make ends meet. Every Oregonian should have access to life-changing home upgrades that lower energy bills, improve health, and protect us from extreme heat and wildfire smoke.

I urge you to support HB 3081 because we must make it easier for people of all incomes and abilities to stay in their homes and make housing resilient.

Sincerely,  
Kristy Giles
