

Submitter: Donna Bleiler

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2299

I STRONGLY SUPPORT HB 2299. To those in opposition asking who gets hurt. We all do!

Porn is more addictive than cocaine or heron. Plus, it is an accelerating addiction. The mind gets bored and has to go to the next level until it reaches rape and murder.

AI has become a deceptive tool that it can be used to victimize innocent people with imagery deceiving viewers. This will break up marriages and families of victims being exploited. Non-consensual sharing of intimate images is used to manipulate, intimidate, blackmail, and harass victims in addition to extorting for financial gain.

All Oregonians lose if we accept this type of use of AI into our culture. There is nothing innocent about using AI as a destructive tool.
