

Submitter: Jeffrey Kelso

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I oppose yet another tax on automobile-related items, especially because this tax would not go to fund road and highway improvements. Instead, the revenue from this tax would be sent to certain "environmental" and "mass transit" boondoggles as so many of our taxpayer dollars have been in the past. You have to know by now that every dollar that is sent to environmental and mass transit causes is a complete waste of resources. Please, just say "no" to yet another misguided money-grab.

Thank you,
Jeff Kelso
Hermiston
