On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

You cannot keep taxing us for the money's you waist and the Fed money's you will lose us because of your treasonous actions importing illegals. Stop diverting monies. Do not tax our tires they cost too much already! My utilities are sky high, and I am sure it's not over before we see just how much over the top taxes we can expect to see in the end. Other states may see their tire sales go way up because of your insanity.
