No Tax on Tires. I strongly oppose HB3362, A tax to fund pet projects of a few. Entrusted to ODOT who has proven beyond a shadow of doubt they can not be trusted with taxpayer funds. The Oregon Legislature needs to realize not ever solution is a new tax. Stop wasteful spending, hold accountable those who mismanage tax payer funds. Projects created in the guise of environmentalism just to spend money and reward those who are deemed politically loyal must be stopped. It is time the Oregon citizens stand up and fight back against the constant attack of new taxes
