

Submitter: Marcia Hendersen

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

I am asking you to reject House Bill 3103, which would force the Department of Forestry to log our public forests at recklessly unsustainable levels.

Please stand up for wildlife, clean water, and the all important ectomycorrhizal fungal network. I don't know if you are aware of all the recent scientific evidence that demonstrates the importance of this underground mycelial web and how detrimental clear cutting is to this newly realized important part of the forest ecosystem . Please preserve our forests in health for future generations.
