

Submitter: Timothy Marble

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am opposed to a tax on tires. This is a sales tax which circumvents a referendum. There's no research to understand the fiscal impact of this measure (administrative overhead). The funds do not directly benefit transportation on the roadways on which tires are driven. A tax on tires will have an inflationary effect by increasing the cost of goods and services which are provided to consumers through vehicular transportation.
