

Submitter: Susan Murbach

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Dear legislators,

Our Oregon National forests are vital to the Northwest ecosystem and water cycle.

Forests create rainwater that we desperately need to prevent drought and wildfire.

Once they are clearcut ground water dries up and precious ecosystems destroyed.

Save our previous forests for future generations.

Let big corporations manage their already existing private plantations. Protect public
lands with forests that keep water tables high and ecosystems thriving!

Sincerely,

Susan Murbach
