Measure, Appointment or Topic: HB3362

ODOT has proven they are unable to handle money. The money woes they have right now just indicates they DO NOT NEED MORE MONEY. They need to be better stewards of the money they have and not keep coming back to the public trough. Too easy to keep raising taxes for projects that are not needed. Stop it. We taxpayers are at wit's end already. This is too much. 4%?!?! Are you crazy? NO Cut your own budget and don't ask us to keep cutting our budgets because you raise taxes. This has a huge impact on us. We need to get to work. We already pay too much for Garbage disposal, Electricity, heating, and Storm Water Run Off (aka, water bill). The prices at the stores still keep going up. You know what does not keep going up? Our paychecks. NO to more taxes.
