

Submitter: Gabe Gaertner
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Dear legislators:

No Tax on Tires, no exception.

There is no end to the need for good and great projects. The fact is that we cannot fund them all. Oregonians are stretched thin with inflation, high living costs and stagnant wages. We cannot fund utopia. It will have to be built by those who can afford to fund it, not legislated.

Once again, no tax on basic needs like tires. Stop spending our money on things we cannot afford, no matter how worthy the cause. Stop making basic needs less affordable.

This will hurt Oregon businesses as consumers flock to online and out of state sources for more affordable prices.
