

Submitter: Margaret Crowder

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a tax-paying Oregonian, I am opposed to this tax on tires! This will undoubtedly encumber those Oregonians that can least afford another intrusion by the State into their wallets. I know of several people driving to work on tires that should be replaced, but tires are already outrageously priced, even at Costco. Sadly, they have no choice as they must travel to work. Not everyone in Oregon lives in a metropolitan area and can access public transportation. Forcing drivers to choose to postpone replacing their tires because of an unnecessary tax will also create a greater danger on the highways due to tire failures. NO ON HB 3362!
