

Submitter: William Howell
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Dear Committee members:

This bill proposes to levy a tax on tires. Funds go to ODOT. Funds then go not to roads but strange undefined, non-specific NGOs, mass transit, (that probably 70% of Oregonians have not access to) and "environmental clean up". It's a scam on Oregon citizens. A very big NO on this bill or any like it. WE are sick of paying more taxes that really do not help anyone except state employees.

William Howell
