

Submitter: Linda Morrison

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I oppose the new tax on automobile tires, most specifically due to the proceeds going to programs that have nothing to do with tires and/ or road usage due to automobile traffic. Light rail is not an option in Central Oregon where I live. I am already paying for it with the State Transit Tax. I don't feel it is fair to be taxed on consumables that I need for my transportation option, for programs I can't use.
