

Submitter: Carol Hoon
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Hello,

I believe it is wrong to tax the sale of tires and then divert the funds away from highways. Oregonians pay up to 9.9% for state income taxes. With the current rates of inflation, and eggs either not available or \$12 per dozen, we cannot afford to pay 4% taxes on tires. Enough is enough. The State of Oregon must learn to live within it's means, just like every Oregonian family must do. NO TAX ON TIRES!

Thank you for doing the right thing.

Sincerely,
Carol Hoon
