Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I oppose this new tax as it does not support rural Oregonians and businesses do not need another tax. Why should the transportation/trucking/agricultural/forestry industries fund environmental organizations? Businesses are struggling in Oregon. Why should rural Oregonians send their hard earned dollars to large cities. What oversight is provided that the funds will be used for roads, transportation and the benefit of all Oregonians, instead of just those residing in major cities.

Thank you for considering my thoughts on this matter.
