

Submitter: Beverly DeLaBruere

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

As a citizen of Damascus, Oregon, where no public transportation is available, I am opposed to a tire tax that will tax motorists who are reliant on their automobiles, and divert that money to uses that do not benefit those motorists. As a senior citizen, I am opposed to more taxes for those on fixed incomes. Please use our money in ways that benefit the majority of Oregonians instead of pet projects that likely line corrupt pockets far more than providing benefits for the general citizens.
