

Submitter: John Davis
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Oregon residence have enough taxes as it is. We dont need another tax that will go to something other than its supposed to. We are taxed enough for roads as it is through fuel taxes and license fees. I know darn well a tax for "Tire Pollution and Rail Transit Fund." is not going to go to the roads. What pollution do tires make anyway? We are not burning them anymore. Just another fake thing so you can tax Oregonians again. We already have to pay to get rid of out tires. No On Tire Tax!
