

Submitter: Marlene Howell

On Behalf Of:

Committee: House Committee On Higher Education and Workforce
Development

Measure, Appointment or Topic: HB3183

Having already sent you an email supporting this measure, I'll simply reiterate that I've seen what happens when college students falter in their studies, or have to leave school because of basic needs not being met. Therefore, I fully support this legislation and ask that you do the same for students in your district, especially those attending PSU and PCC.

Thank-you.
